

## Project Data Sheet

**Title** Northstar Fire Pits

**Location** Northstar, Truckee, Ca

**Description** After a day of riding the lifts, slip off those ski or board boots and into your fuzzy snow boots, then gather around a fire pit in Northstar's village area. These custom log fire pits are placed all around the village for the guests warmth and convenience. Each one is decorated with faux metal logs that act and look like real wood. Inside there are metal pine cones, pine needles and sticks that create a more realistic setting.

**Date** 2012-2018

**Medium** mild steel, fire

**Dimensions** 3'H x 5'W x 5'D

**Commissioned by** Vail Resorts
